**Jacksonville Republican.**  
JACKSONVILLE, ALA.  
September 6, 1860.

FOR PRESIDENT,  
**J. C. BRECKINRIDGE,**  
OF KENTUCKY.  
FOR VICE PRESIDENT,  
**GEN. JOSEPH LANE,**  
OF OREGON.

Gen. Sam Houston has written a letter, unconditionally declining as a candidate for the Presidency. It is supposed that he has been influenced to this course by the recent elections in Texas, in which the Breckinridge party obtained a majority of from 20,000 to 25,000.

We have received several communications, not of a pressing nature, which we are compelled to defer, in consequence of the importance of the news, and political issues before the country, which must be decided in a short time.

**Rome—Her Railroads, Improvements, Manufactures, Commerce, &c.**—We promised in our last, a more extended notice of this subject in our present number.

In going to and returning from Rome, we were highly gratified to see, that a large portion of the grading of the Railroad in this direction had been completed for some eight or nine miles. The bridge also across the Etowah, is in a forward state of construction, the pillars and abutments nearly up, and timbers all on the bank, ready to finish it. The energetic and faithful Contractor, Col. John D. Gray, has a large number of hands at work, with abundant ability to increase them at will. Altogether, we may reasonably and confidently hope to have direct railroad connection with Rome and Dalton in some two years.

**S. E. Berry, & Co.** were having an extensive addition built to their large Grocery and Commission House near the bridge, and several large and really fine business houses were in course of erection higher up on main street, to be covered with a splendid quality of slate from Polk County quarry. A large three story brick Manufacturing establishment has recently been erected by Mr. O. B. Eve, is now in operation near the mouth of the Oostanaula. The machinery is propelled by steam, and is used for preparing Carriage materials, grinding, sawing, &c.

There is also another extensive steam manufacturing establishment, in the upper part of the city, erected and owned by **Messrs. Mills & Sumpster**, used principally in the preparation of materials for their large Furniture Warehouse on main street. We passed through their Furniture establishment while Rome, and were truly surprised at the extent, variety and fitness of their stock of Furniture.— Large rooms were filled below and above with almost every imaginable description, quality and style, from the most costly to the most common and cheap. Persons wishing to purchase Furniture would do well to send their orders, or give their establishment a call while in Rome. They will find the proprietors, correct, affable and gentlemanly business men, with whom they can hardly fail to be well pleased.

The Merchants of Rome seemed to complain generally of a very dull season on the past Spring and Summer; and this complaint we believe is common in many other places.

**Messrs. R. S. NORTON & SON, SLOAN, & HOOPERS, JONES, SCOTT, & CO. & others, have very large & fine stocks on hand, for the season, & from what we could learn, were offering them at really very low prices.**

In the line of Drugs, Medicines, & Messrs. L. P. Turnley, and Farrell & Yeiser, have fine stocks on hand.

We passed some time, (as we always do when in Rome,) in the extensive Steam Engine Works, Foundry and Machine Shops of Messrs. NOBLE & BROTHERS & CO. We were glad to find that this worthy and energetic company had an abundance of profitable work on hand—some six or eight steam engines in course of erection— Mill and Mining machinery—Casting Building materials—Iron tubes for Railroad Culverts, &c. As the demand for Steam and other machinery increases, this establishment will be found very convenient to the citizens of this section of country. Their work is said by those who have used it to be as good and complete, and of as fine finish as can be purchased elsewhere, and their prices uniformly very moderate.

As we passed through the yard with one of the proprietors, he pointed out to us a pile of Pig Iron, procured from the Iron Works of Messrs. GOODIE MORRIS & CO. of this County, which he said was the very best Iron they had ever used.

We are unwilling to close this brief notice of Rome and its business, without returning our sincere thanks to COL. L. P. THOMAS, of the ETOWAH HOUSE, and his polite and gentlemanly assistant, E. P. BENNETT, for their friendly and courteous attentions, during our stay with them. This is an excellent House, where the traveller will find his comfort provided for, and all his reasonable wants supplied, without ostentation or parade. We most heartily commend it to the patronage of the public.

**Abolition Incendiaries—Negro Insurrections, &c.**

Our readers will find in to-day's paper, the promised letter from J. C. Archer, of Texas; and also, from other sources, all the information received of the burnings of Texas, insurrectionary plots, &c. not only in Texas, but various parts of this State.

When we remember, in this State of things, the significant fact mentioned by Mr. Archer, that at the last session of Congress, the Black Republicans defeated all appropriations to defray the expenses of a Regiment for the protection of Texas, is not the course now being pursued by some of the political leaders in our own State, profoundly humiliating, if not criminal. We allude to the startling fact, that in the midst of all these just causes of alarm, apprehension and danger, a number of Douglas leaders, (acted as we would charitably hope, only by blind party zeal,) are stamping it over the State, and abusing the last Alabama Legislature for passing a bill, making a small appropriation and some little preparation for military defence. While this is going on, we see a Douglas paper in North Alabama, asserting that D. C. Humphries, the great Douglas stump orator, had received letters from Texas, giving reliable information, that all the fires in Texas had been purely accidental. Another Douglas paper in South Alabama, gives more bold and blind, denounces all these accounts as the work of the "precipitators"—the Breckinridge disunion faction"—and says, if any one wants to read accounts of insurrections, they must take the Montgomery Mail, as all such disclosures are made by that paper. Can it be possible that those papers would wilfully disguise and suppress facts, and endanger the lives and property of the citizens of the South, through fear that they might become alive to their rights, responsibilities and dangers, and thus their idol Douglas lose some political capital? We merely ask the question, and leave others to judge for themselves, from the state of facts presented.

We wish our subscribers who remove from the neighborhood of one Post-office to another would promptly inform us of the fact, without giving Post Masters so much trouble, and causing us to misdirect so many papers. Editors are generally a knowing set of fellows; but cannot know every move made among hundreds or thousands of subscribers, unless informed of it.

We invite attention to the advertisement of Dr. T. N. Anglin, who has recently purchased the Drug Store in this place, formerly owned by Slattery & Taylor, wholesale and retail Druggists, Talladega, Ala., that they still continue to keep on hand a full and complete assortment of Drugs, Medicines, &c. Country Physicians and others may rely upon being furnished with the best and purest articles; and it would be difficult for them to find more competent correct and accommodating gentlemen than the proprietors of the Talladega Drug store.

We wish our subscribers who remove from the neighborhood of one Post-office to another would promptly inform us of the fact, without giving Post Masters so much trouble, and causing us to misdirect so many papers. Editors are generally a knowing set of fellows; but cannot know every move made among hundreds or thousands of subscribers, unless informed of it.

We invite attention to the advertisement of Dr. T. N. Anglin, who has recently purchased the Drug Store in this place, formerly owned by Slattery & Taylor. He has recently received a considerable addition the large stock on hand, and is prepared to supply the wants of the public with all articles in that line.

Dr. A. has made many friends during his brief sojourn with us, and is justly regarded as a valuable acquisition to our population.

Our thanks are due to Dr. J. F. Hammond, and the patrons whose names he has forwarded us as subscribers; and particularly for the flattering manner in which they mention the popularity of our paper. As our space increases, we will merit more and more their favorable opinion, and give them every thing that can be interesting or useful, in this progressive, active, living, moving age.

Attention is invited to the card of Dr. J. W. Hicks, who has permanently located himself in this place, for the practice of Medicine, and will give his undivided attention to the duties of his profession. Dr. Shayton is a graduate of Pennsylvania Medical University, and has also had the advantage of several years successful practice in South Carolina and Georgia.

We learn that an effort will be made soon to purchase a Chemical Apparatus, for the use of the Male Academy of this place; and in view of the importance of such an acquisition to that Institution, in the study of that useful and in dispensable science, we hope a commendable liberality will be manifested by our citizens in raising the amount necessary. We learn also, that Dr. J. W. Hicks, who has recently settled in our place, has expressed a willingness, in case the apparatus is procured, to give weekly practical experiments and lectures, for at least one year, free of charge. This liberal proposal makes it the more important that the effort should succeed.

The object of the course of lectures and experiments will be to impress the lessons upon the minds of pupils so that they will never be forgotten in after life; and as this is an age when no man or woman is considered educated without some knowledge of chemistry, it is essential that they should be taught the rudiments of it in early youth, with as much care as they are the rudiments of the English language—and in teaching, it is equally necessary to bring to bear everything that is calculated to assist them in the pursuit of that department. Every one will acknowledge that it is impossible that chemistry can be taught properly and effectually without the aid of a chemical apparatus. A student may labour for weeks on inorganic chemistry—he may learn by rote all the signs and symbols, and be able to repeat them; but when he comes to the practical parts, the application of the tests, and he is at a loss to know where to begin—he has never seen an apparatus supplied, and consequently would have to learn the man-

ipulation as a separate study—whereas by giving the experiments once a week, on the part they had gone over during the week, the lesson would be impressed on their minds, and the manipulation learned at the same time.

Besides during the experiments he will endeavor to teach the class the composition of the different soils and what particular property of the soil is extracted by the various crops cultivated—viz corn, cotton, wheat, oats, rye, turnips, beets, &c. and what kind of manures are necessary to restore the ingredients extracted from the soil by the various crops.

Every farmer knows by experience, that a field cultivated successively for several years with one crop, will become barren for that plant varying with the nature of the soil—one field will bear wheat and no turnips, another turnips and no clover. What is the reason of this? Art cannot answer—but science can.

So that we see a knowledge of chemistry is not only essential to the physician and druggist, but to the farmer, the tanner, the manufacturer, the blacksmith, and even the house-wife in the manufacture of soaps, &c.

A complete chemical apparatus sufficient for the schools will cost about \$300 and 12 patrons of the school giving \$25 each will make up the amount—with careful handling it will last 20 years.

The lectures will also be free for the girls of the other schools who may wish to attend once a week.

It will be seen by reference to the advertisement of Messrs. Curry & Taylor, wholesale and retail Druggists, Talladega, Ala., that they still continue to keep on hand a full and complete assortment of Drugs, Medicines, &c.

The concurrent testimony of all the negroes examined goes to show beyond the possibility of doubt, that the whole plot was concocted and set on foot by white men. It shows too, that abolition emissaries have been in our midst, inciting our slaves to rebellion, and conspiring against the lives of our citizens.

Two white men, citizens of our county, (Leon Paine, and Steadman) have been arrested and lodged in prison.

The Henderson Times of the 11th says: "We have seen a note, written near Danville, by Col. Dunn's overseer, to his son, Charles Dunn, which said that a negro boy, Allen, formerly belonging to Mr. Dunn, had confessed his connection with this insurrectionary movement, and was to be put in jail, as leaders in the proposed rebellion.

As there is every reason to believe that similar plots are in existence in other districts in the South, it becomes the duty of every community with a slave population, to see that no torches are prepared for the destruction of their homes, and that no knives are forging for the butchery of their mothers, wives, daughters and sisters.

A Vigilance Committee has been formed in our county, which has been for some days past, actively engaged in ferreting out the offenders. As "Eternal vigilance is the price of liberty," so is active vigilance in this age of abolition.

As there is every reason to believe that similar plots are in existence in other districts in the South, it becomes the duty of every community with a slave population, to see that no torches are prepared for the destruction of their homes, and that no knives are forging for the butchery of their mothers, wives, daughters and sisters.

The citizens of Millville, Rusk County, held a public meeting on the 16th, to consider the condition of the country and devise means for protecting life and property.

The citizens of Millville, Rusk County, held a public meeting on the 16th, to examine into the character of certain suspicious persons and to organize patrols. Sundry individuals were ordered to leave the country.

The Quittman Herald of the 15th says: "A gentleman from Little Elm, in Denton county, on Saturday last, informed us that the citizens of Denton are as much excited as elsewhere in the State. A negro had been arrested in that county, in whose possession twenty-four bottles of strychnine were found.

The Bellville Courier of the 18th comes to us with reports of the proceedings of large and enthusiastic public meetings at Bellville on the 7th, and at Travis and Etowah on the 4th, to appoint vigilance committees and patrols, and adopt such other measures of safety as the recent Abolition movements in the State call for.

The patrol system has had a beneficial effect at Cameron, Milligan, and other places, in making the negroes keep wholesome hours.

The Rusk Engager learns that a Yankee Abolition schoolmaster was hung on the 16th, in Anderson county. He was convicted of inciting the negroes to insurrection.

Danger at Home!

We have been permitted to extract from a letter received by one of our citizens from Camden, Wilkes county, on yesterday, the following startling intelligence.

We heard yesterday of an occurrence that took place near Coffeeville, Clark County, last week, that should far surpass any previous, clear, concise, forcible, logical and convincing argument and powerful telling. Thus rare effort carried conviction, to the minds of many. There was but one known Douglassite on hand, and but a very small sprinkling of Bellmen.

\* \* \* spread upon the canvas the somewhat dark political record of John Bell. Mr. C. did not charge that Mr. Bell was an abolitionist, but that he had a singular way of manifesting his love for the South, by voting most generally, with the Black Republican party on questions, affecting southern interests.

I had heard our distinguished representative often before, but this effort far surpassed any previous, clear, concise, forcible, logical and convincing argument and powerful telling. Thus rare effort carried conviction, to the minds of many. There was but one known Douglassite on hand, and but a very small sprinkling of Bellmen.

I am satisfied that Randolph County will roll down a majority for the true constitutional party for Breckinridge and Lane of not less than 10000 against the combined influence of both the factions with which we have to contend.

Yours in haste, H. C. G.

**DOUGLASS THE DISUNION CANDIDATE**—Douglas is supported at the South by nearly all the open and avowed disunionists, such as Pierre Soulé, La. Gaillard, and G. W. Campbell, of the Southern Confederacy, a paper whose very name indicates opposition to the Constitution, and many of the same ilk. The design of these men is to elect Lincoln, and thus have a pretence for disunion. That is their object without any doubt. Douglas also wants revenge on the Democratic party, because they would not nominate him. This excited enquiry, and the coffin was dug up by a committee who found it was filled with ARMS AND AMMUNITION! A party has left Coffeyville in pursuit of the "Gipsies," as these scoundrels called themselves.

When such things are taking place, it sounds well for southern men to be assisting the Military Bill.

If there are any who can longer doubt the existence of a deeply laid plot to involve us in the most fearful perils, we do not envy them their skepticism. How long will we slumber over a volcano and yet denounce those who warn us of danger? The source of the above information is the most reliable—Selma issue.

J. F. HAMMOND. Cane Land, Ala Aug. 25th, '60.

We call the attention of farmers and others to the advertisement of Messrs. Farrell & Yeiser, who now propose to furnish them with valuable Grass and Clover seeds, at moderate prices. In these times of scarcity these crops will be very valuable to the farmer.

**Fusion in New York.**

WASHINGTON, Aug. 27.—An important and rather unexpected political movement is about to be consummated in New York. The Breckinridge and Lane leaders have at last agreed to operate with the Douglas and Bell parties, to secure the defeat of the Black Republicans. The arrangements for the union will be completed on Wednesday next. You can rely on this as certain. Thus the last nail in driven into the political coffin of Abraham Lincoln.

PREFERS LINCOLN TO A COALITION WITH THE REGULAR DEMOCRATS.—The Providence Press—a DOUGLAS sheet—indignantly repudiates a coalition with the Democracy. Speaking of the friends of BRECKINRIDGE, this organ says:

"With the Democracy. Speaking of the friends of BRECKINRIDGE, this organ says: Coalition with them must therefore be too repulsive for honest Douglass men to endure, even to defeat Lincoln; whose straight forwardness has the hearty endorsement of Douglas himself."

**Servile Insurrection.**

A most diabolical plot has been discovered with our negro population, contemplating the destruction of Talladega, the massacre of the citizens, and the ravaging of the surrounding country. The plan is extensive, deep laid and has been on hand some months.

Suspicion was first aroused to the fact, as much as three or four weeks since, nothing was known of its extent or exact character, until about a fortnight ago, when the plot was disclosed to the Messrs. Lane, by one of their negroes.

This led to the examination of the negroes, headlined by a white man in each county, were to rise and kill all old women and children, having been promised the young and handsome ones by the abolitionists for wives (some have gone so far as to designate their choice). To effect this, the abolitionists have distributed a considerable quantity of arms, ammunition, money and poison among the negroes, with instruction to kill by every means in their power, and to burn up all they possibly could; a million of dollars will not near sum up the losses to this date.

We have been present at the examination of some of the negroes implicated in the proposed insurrection, and was struck with the adaption of the plan to excite both the cruelty and the fears of the negro. The lure of fire, lust, and unbridled liberty was held out as an inducement to engage in the hellish plot, while those who betrayed the plan, or refused to join it were threatened with certain death.

The plan of attack was to assemble at Talladega, separate into small parties, repair to all of the houses in town, fire them simultaneously, and then to stand outside and murder the whites as they ran out. The time agreed upon for the assault was some Saturday night about the middle of September.

The concurrent testimony of all the negroes examined goes to show beyond the possibility of doubt, that the whole plot was concocted and set on foot by white men. It shows too, that abolition emissaries have been in our midst, inciting our slaves to rebellion, and conspiring against the lives of our citizens.

Two white men, citizens of our county, (Leon Paine, and Steadman) have been arrested and lodged in prison.

This well known, first class sidewheeler, STATE OF GEORGIA, Capt. J. G. GARVIN & KEYSTONE STATE, Capt. C. P. MARSHMILL, now forms a regular line for the North, leaving Charleston on the 15th and 25th of every month.

The KEYSTONE STATE sails from Charleston on the 15th, 20th and 30th of every month.

These ships are in strength, speed and accommodations, fully equal to any on the ocean.

They are to draw off the Spanish force from its threatening position before Vera Cruz.

Thirty-four soldiers, forming the guard of a company, had passed for want of water. The greatest scarcity of provisions prevailed in Northern Mexico; the supplies of corn and wheat were completely exhausted. The population of the towns were compelled to enlist or flee. Great dissatisfaction prevailed in consequence.

This arrangement unquestionably takes the vote of the State from Lincoln and gives it to Breckinridge.

Now a united South march up and win a triumph, securing all but right in the Union!

Our Importers and Jobbers of Foreign Merchandise have all been represented in the markets of Europe, this Spring and Summer either by members of their respective firms, or Agents fully competent to select goods for them. The Agents have made a sufficient cash for each, or its equivalent, for their selection will form full and attractive stocks for the inspection of the interior merchant. Our factory for obtaining Domestic Goods direct from the manufacturers, are unsurpassed in the quality of any city in the Union.

We have therefore invited you to inspect our **FALL STOCKS OF FOREIGN AND DOMESTIC GOODS**, feeling assured that all who may do so, without prejudice, will make their purchases in this market. Our Stock will be complete early in August, when we will be pleased to receive the visits of our old and new mercantile friends.

FOR PRESIDENT.

J.C. BRECKINRIDGE,  
OF KENTUCKY.

FOR VICE PRESIDENT,

GEN. JOSEPH LANE,  
OF OREGON.

Breckinridge is the only candidate for the Presidency who has an electoral ticket in every State in the Union; Bell and Douglas have no ticket in several Southern and Northern States, and Lane has none in any Southern State, yet the Douglassites talk about Douglas being the National candidate, when he cannot be certain of getting a single State. Bell follows on as a glancer, and Lincoln I course is notoriously a Northern sectional candidate.

**Awful Tragedy.—Murder and Suicide.**—On Wednesday or Thursday last, near White Plains in this County, a man named Pearson shot and killed his son-in-law, Hughes, and on Sunday last committed suicide by shooting himself through the head.

Some of the particulars of the tragic affair, as related to us, are as follows: Hughes kept a small grocery, not far from his own residence some few miles from White Plains: on the day he was shot, Pearson sent him for a quart of liquor, which from some cause, he refused to send. That evening, perhaps some few hours after, Pearson passed Hughes' house, where he was sitting in or by the door with his wife. Pearson had a gun, and after a very few words had passed, he fired at Hughes, sending five buck shot into his breast, from which he died in a few minutes. Pearson then immediately fled, but it appears, did not leave the neighborhood, and some unsuccessful search had been made for him. He had secreted himself in a swamp, where provisions had been carried him by a little son. On Friday he told his son he was going to shoot himself, and that he must go home and tell an older brother and another man that when they heard the gun, they must come to him. The little boy had not got to the house when the gun was heard, but on telling what he was instructed, they immediately went to the place and found Pearson already dead, shot through the head with a bullet, which had entered by the side of one ear, taking off a part of it, and came out at the other side high up.

Such is a brief account of this shocking tragedy. It is useless to comment or moralize. If after the mention of the grocery and quart of liquor, there be those who would discover the cause and make the application, neither recent tragedies, persons or arguments could arouse their hearts to any degree of opposition to the all-destroying monster.

Morgan who was stabbed in the temple by Westbrook, near Ladiga, died on Sunday morning last.

**The Bell-Union Neg all right.**

We receive every day, more and more convincing proofs in the shape of subscriptions for the "National Democrat," that the friends of Bell are determined to unite with those of Douglass, on two points at least. One is, that Breckinridge shall not be elected, the other that "the Union must and shall be preserved!" Hurrah for Bell! His strength is our strength, his success is our success, and his friends are our friends.—*Character Co. Nat. Dem.*

Now boys, quit that. If you pretend to be *National Democrats*, don't throw yourselves openly and shamelessly into the arms of the Whigs and Know-Nothings. But we confess, you have told us as much truth in the above paragraph as we have seen in the same space in a Douglass paper for many months. It is true, that Bell's strength is your strength, his success is your success, and his friends your friends!—and for this very reason, you have no right to call yourselves Democrats of any kind; & we can't see why you are running Douglass to divide Bell's strength. But a few short months ago, you declined to be Administration Democrats, then Mr. Breckinridge, with you, was one of the purest and best men in the government; now your papers and politicians assert that the present is the most corrupt and venal administration, with which the government has ever been cursed. In your blind devotion to Douglass, you have reversed the Democratic maxim of "measures, not men," and virtually adopted that of "men, not measures," and you see where it has drifted you. We do not wonder that the Bell men subscribe for your paper, having no Whig paper in the County—but they have no confidence in you now, and only subscribe to encourage you in the mischief they think you are doing the Democratic party.

But seriously, if you Bell Douglass men and Bell's Whigs must set down the foot of your power, and say some body shall not be elected, let it be Lincoln, the Black Republican, and not Breckinridge, the only true Southern State Rights Constitutional Democratic candidate on the field.

**Speaking in Randolph.**—On Tuesday of the first week of Court, Mr. Parsons, we learn, made a speech in favor of Douglass and Johnson, which was feebly received. He was replied to on next day by G. C. Whately, Esq., of this place, in his usual eloquent, argumentative, and convincing style. Mr. Whately, we are informed, utterly demolished the feeble anti-Southern

positions and arguments of his opponent, and was loudly and enthusiastically cheered throughout.

Randolph is now almost as near visited on Breckinridge and Lane as the County, and daily becoming more so.

**Cheap Goods.**—Notwithstanding the hard times, our friends Kahn & Fleischl, as will be seen by their advertisement, are receiving a large and well assured stock of Fall & Winter Goods.

We were in their store the other day, and found their shelves crowded and counters piled up with goods. We suppose their stock of Ready Made Clothing in particular, is unsurpassed in this section of country. Mr. Kahn, the senior of the firm has been long known to our citizens as a Merchant, and it is the object of the firm, by strict integrity, and a course of upright and fair dealing to build up and maintain a permanent business. Call and examine their stock, and we have no doubt you can obtain such articles as you may need, out of their great variety, and at prices too, which will make it your interest to trade.

**Still.**—Still, says the St. Clair Diamond, who recently shot and killed Sins, in St. Clair County, and made his escape, has been arrested, and is now in St. Clair Jail, with his father and two brothers. He was arrested in Warren County, Ky.

**See in another column, land for sale by John Hickey, Esq.**—We assure those who may want a small place, well improved, with mills, &c. that they may now have a good opportunity to buy in the vicinity of the great industrial trunk roads, and the canals, etc., in the midst of their travel and labor, they are about closing up with safe delivery. This road before a great while will be finished. Our attention is now being diverted to the ways and means to finish the other broken links.

Col. Burwell, very timely and opportunely suggests that all of the finished roads on this line ought to aid, and contribute in filling up the gaps, his arguments and illustrations are conclusive at this point.

The Atla. & Tenn. R. R. Co. are willing to join other companies in endeavoring to have the unfinished roads for the purpose of connecting the Gulf ports with the Tennessee and Virginia railroads, which will give direct and short connection with the provision States in the West and North West, and the manufacturing States in the North East.

Let your roads at Mobile and Pensacola be connected by rail—by way of Selma, Jacksonville, Rome, Dalton, Terminus, creek route to Cross Plains, thence to this place, and return the due east route. He said he found the

Terminus creek route more practicable than he expected; and we understand from those who accompanied him on the return route, some distance, that he expressed the opinion that the direct route due east from here was altogether practicable, by cutting a short tunnel of perhaps 150 yards long, which would

be preferable to going a mile further south through the White gap. A thorough survey, however, will be made to test by the instruments the correctness of these opinions.

Mr. G. is a most skillful and competent Engineer, and has had the advantage of more than 20 years experience on the Georgia Roads. None who know him, and have known him long, entertain the shadow of doubt, but what he will after the surveys, make a most correct, fair and impartial report of the distance, practicability and utility of the routes, to the Board of Directors, and then they will decide.

We received also last week, a letter from W. P. Orme, Esq., Secy. & Tr., which speaks in the most sanguine terms of the certain and speedy completion of the road, he says:

"There are now two corps of Engineers in the field, locating with all possible despatch, and we hope in the course of a month to send you a notice

to Contractors, of a public letting of the first 50 miles of the Road. We have the means and the men, to push the work through—and I predict, that the same distance of Road was never laid in Georgia, built in so short a time, as this will be."

"The action of persons having business in law, is invited to the end of Terminus, Brasford, T. S., who has settled in our place for the purpose of practicing Law. Mr. Brasford has laid a fine road, and whenever gold and silver goes round same will be followed by man, for he likes to tell it in its wake.

There are other important views laid forth in Col. Burwell's letter, on behalf of the Board of Directors of the Alabama & Tennessee R. R. Co., the Georgia and

"From the present time until the presidential election, we must necessarily devote a considerable portion of our space to political news, on other subjects, which we favor with commands, censures, and reverses. As on other subjects, will please to write us, if we have to defer them a short time.

"To quiet unnecessary fear and apprehension, we would state that an investigating Committee, now composed of some fifteen of our most discreet citizens, has been in session for some days, but have as yet discovered no vestiges of an insurrectionary plot in this immediate vicinity, or that negroes here were connected with others elsewhere. But while we say this much, we still remain silent and circumspect. There may be danger, which it is hard to discover, and fire, poison, the favorite weapons of abolition enemies in Texas, are as hard to guard against.

**Medical College of Georgia.**

We invite especial attention to the notice in another column, of the commencement of the 20th Regular Course of Lectures in this Institution. One of the first established in the Southern country, one other, has for so long a period sustained a high reputation. It still has an able and experienced faculty, and most complete

and costly apparatus, in the various departments. Augusta is easy of access from this section of country; and we venture to suggest to Students of Medicine, that there are types of disease peculiar to Southern climate, that are better understood and better taught in Southern than Northern Institutions. We hope that this justly popular Medical College, may continue to receive a liberal patronage from this section of country.

**Our Rail Roads, and Wm. M. Burwell.**

We invite especial attention to the letter of Col. Wm. M. Burwell, of Virginia, addressed to the President of the Atla. & Tenn. river R. R. Co.

It is well worthy of the careful perusal and examination of all our readers. Col. Burwell is one of Virginia's most talented sons—he has been the able advocate of this line of central trunk roads from the Gulf of Mexico by way of Selma, Knoxville—Lynchburg and Washington to New York—his pen and tongue has contributed much in laying before the public the great importance of this line of railway, not only in a local and social point of view—but in a national and commercial point of view. We are more than gratified, to have it in our power to lay this valuable paper before our patrons.

The stock-holders of the Atla. & Tenn. R. R. Co. have for a long time been struggling to construct one important link in this great central trunk road; they have contended, and wrangled with all the conflicting elements, incident to like interests, yet in the midst of their travail, and labor, they are about closing up with safety delivery. This road before a great while will be finished. Our attention is now being diverted to the ways and means to finish the other broken links.

Col. Burwell, very timely and opportunely suggests that all of the finished roads on this line ought to aid, and contribute in filling up the gaps, his arguments and illustrations are conclusive at this point.

**The News Insurrectionary Movement in Dalton.**

Some little excitement was created on Saturday night last with reference to a meeting to be held on the part of the negroes to rise and set fire to the town at one o'clock, not far distant. What gave rise to the suspicion that such a thing was in contemplation by them was a regulation made by a negro girl belonging to the Rev. Mr. Jas. Lyman of this place, several weeks ago, and it was to meet on Saturday evening at a hall in the rear of the Dalton, Rome, & Jacksonville Geat, and hazard nothing by informing the leaders of the rebels, that they were to meet at that hour.

But a few short months ago, you declined to be Administration Democrats, then Mr. Breckinridge, with you, was one of the purest and best men in the government; now your papers and politicians assert that the present is the most corrupt and venal administration, with which the government has ever been cursed. JACKSONVILLE, ALA.  
September 20, 1860.

FOR PRESIDENT,  
**J. C. BRECKINRIDGE,**  
OF KENTUCKY.

FOR VICE PRESIDENT,

**GEN. JOSEPH LANE,**  
OF OREGON.

To Our Patrons.

We have promised money in the evident expectation of receiving it from our patrons, during the time of our ensuing Fall Court, and hope we shall not be disappointed. We have collected comparatively nothing since the hard times set in early in the Spring, while our cash expenses have been going on without abatement; which we hope will be a sufficient apology for making this request.

**Texas.**—We have been shown a letter of late date from Mr. R. S. Green, formerly of this County, which contains some interesting items of information.—In relation to the drought and crops, he says, they had 15 weeks of dry hot weather—that the corn and cotton crop is very short, but that wheat is plenty. The mast is extraordinary, limbs of oak trees breaking down with it, and that so soon as it falls, it will fatten all the hogs they need. Pork had already been engaged at 5 cents meat. Since the rains, every thing had come out fresh like Spring, and some were predicting great hopes on what they called the second crop of cotton.

In relation to the insurrectionary movements, he says, all is quiet now. He says he was present at the hanging of two abolition incendiaries—supposes we have seen accounts in the papers of the hanging of a good many, but that we have not heard of half—thinks the last one has been hung, which we fear is a mistaken calculation.

Relative to the Presidential election, he says: "We are all here for Breckinridge and Lane—set down Texas twenty-five thousand majority for the Southern Rights candidates.

**PUBLIC SPEAKING.**—We understand that G. C. Whately, Esq., filled his appointments in the eastern side of this County, on Thursday, Friday, and Saturday last. It was accompanied Judge Woods, of this place, who also addressed the people in favor of Breckinridge & Lane, at all the appointments. They were replied to at two of the appointments, by Mr. B. O. Ramey, of White Plains; and at the third by B. O. Ramey, and W. J. Borden, Esq., formerly of this County, now of Georgia. Ramey and Borden spoke in favor of Bell and Everett, but we learn that in their arguments they did not touch the real issues of the day, but were mostly confined to the clap-trap stuff about Breckinridge being no slave holder, an emancipationist, disunionist, &c. which have long since been disproved and given up by the most intelligent of the Bell and Douglas parties. There was not, we are informed, a single Douglass man to be found at any of the appointments, & but a small sprinkling of Bell men but even among these, the well directed shot of our friends, Whately and Woods, did effective service. At one appointment, five declared their intention to go for Breckinridge and Lane, and at the others, it is believed a like impression was made.

We invite the attention of all who may wish to have a writing executed, to the advertisement of Mr. J. Z. Brady. Mr. Brady has been a citizen of our Town a number of years, engaged in his business of painting, and so far as we know has executed his work promptly, and has given universal satisfaction to his patrons; his prices for work too, have been uniformly moderate and reasonable.

We have been brought under renewed and additional obligations to our friend J. P. Turnley, Druggist, of Rome, Ga., by the reception of a rare and valuable present. We know not better how to repay his generosity, than by a renewal of our recommendation of himself and business to our numerous readers. We have always found it good policy to patronize those who gave unmistakable evidence of generosity and liberality. They are not to be contrasted to give good bargains, and their representations may be relied upon.

We are requested to state, that G. C. Whately, Esq., has accepted the invitation of a number of citizens of Terrian Creek Valley, and will address them, in favor of Breckinridge and Lane on Saturday next at Ladigan.

**New Store.**—We invite the attention of those who may wish to purchase cheap Goods, (and who does not desire these hard times?) to the advertisement of Messrs. Blum & Frank, who are opening a large stock in the Brick Store, north east corner of the square.

These gentlemen have been engaged in merchandising in the fashionable city of Columbus; and as they are desirous of establishing a permanent business here, will offer unusual inducements to their patrons.

Mr. C. C. Dodson, formerly with Messrs. Kahn & Fleischl, will be found in this house, ready at all times to wait upon his numerous friends and acquaintances of all present.

Yours truly  
AN OBSERVER.

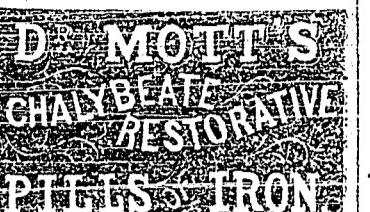

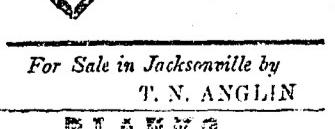

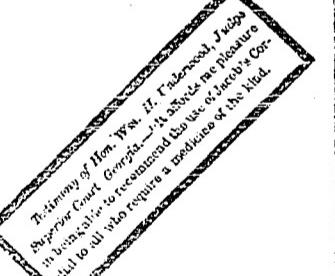

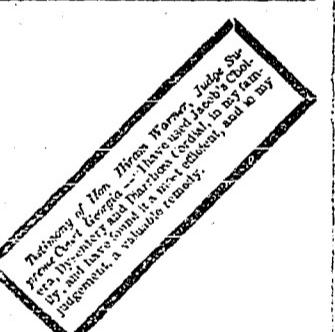

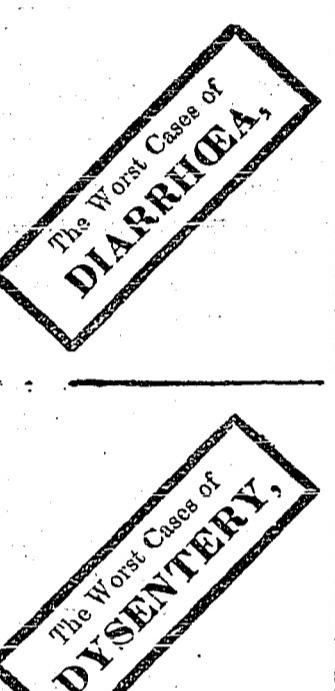

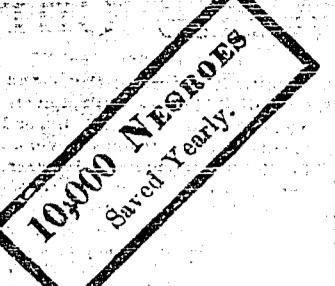

**Health of Charleston.**—We have received an Extra of the "Charleston Mercury," dated 11th inst. containing the Report of the city Registrar, and some four letters from distinguished Physicians of that city, which represent the health of the city in a very favorable condition—in fact, never better at this season of the year. In relation to trade the Mercury says: "Our country merchants especially, are invited to examining the full supply of all sorts of merchandise which our importers have laid in, before they pass on to the North. Charleston was never better prepared to meet the demands of the interior. Let our people draw nearer together in all the relations of society and commerce. We are one in destiny. Let us be one in interest and intercourse."

**New Paper.**—We have received the Prospectus of a new Breckinridge & Lane paper, to be issued in Rome, Ga., about one week from the present date, to be Entitled "The True Flag." It will be published by H. D. Mason, one of the former Proprietors of "The Southerner," and at present proprietor of the Steam Press Job Office." The paper is intended, and will no doubt be permanent. It will be published at \$2 per annum in advance. The name of Mr. Mason is a sufficient guarantee that it will not only be one of the neatest papers in the South, but also truly interesting and valuable. We hope it may be liberally supported by the State Rights Constitutional Democrats of Western Georgia, and that they may be aided by many liberal politicians of like character in this section. Friends of the South, encourage and strengthen the hands of your friends, where you see them need it, and are struggling to sustain your vital principles.

Mr. GRANT.

**Dear Sir:**—Will you be so kind as to permit me through your valuable paper, to ask who the Tax Collector of Calhoun County: We old school teachers that live in the piney woods, and do not take the papers, of course do not know the names of the different officers of our county. We would not make this enquiry if there was not for our last year's service we have not received one cent of our school funds for this county. Times being very hard, meat and bread stuff very scarce and high, and some of us having very large families, makes it a difficult matter to keep them something to show. And worst of all, our creditors are looking on us with a jealous eye, which seems to indicate, they are fearful to credit us any further, for fear we have already lost what they have credited us for. Such a state of things is quite unpleasant; and if you can through your journal give us the name of our tax collector and his whereabouts, we will take it as a very great favor indeed. Some of our patrons that have been taking the papers, and seem to be posted in matters and things generally, say that he lives in Montgomery. If you are not posted of his name and whereabouts, or location, my patrons inform me if you will ask Judge Woods, he perhaps can tell you. But if the Judge does not know, see Mr. Woodward, who says he is Treasurer of this county, and in the event either of them can tell you anything of Mr. Tax collector; its quite probable that Mr. Dodson can give you the desired information. They say he is Superintendent of this county, and that our little morsel has to come through his hands. Now as to this fact, we piney woods teachers not taking the papers, are ignorant of it; and it matters not with us, so we get our money for last year's service, how that thing goes; and if you or either of these other gentlemen, can give us the desired information of whom Mr. Tax collector is, and his whereabouts, we will immediately have a call meeting of the parents not with us, to get our money for last year's service, how that thing goes; and if you or either of these other gentlemen, can give us the desired information of whom Mr. Tax collector is, and his whereabouts, we will immediately have a call meeting of the parents not with us, to get our money for last year's service, how that thing goes; STATE OF ALABAMA, Calhoun County, Court of Probate for Calhoun County, Ala. Special Term, August 27th, A. D. 1860.

THIS day came Irvin Martin Administrator of the Estate of Joseph Gladden, dec'd, and filed his petition in writing, representing that his intestate owned at his death twenty-two slaves of different ages &c, that he also died leaving the following named heirs at law of his estate, to-wit: Martha J. Gladden, Elizabeth Whisenant, late Elizabeth Gladden, and now the wife of David Whisenant, all of whom are over the age of twenty-one years and reside in said county of Calhoun; Sallie Wells, who is over the age of twenty-one years, and reside in Cass County in the State of Georgia; Joseph P. Gladden, who is over twenty-one years of age and resides in Texas County in the State of Missouri, and Jane C. Castner, late Jane C. Gladden, now the wife of A. Castner, whose of full age and reside in York District in the State of South Carolina.—Said Administrator asks that an order and decree of said court be made authorizing the sale of said negroes, alleging that it would be more to the interest of the heirs of said estate, that said negroes should be sold for distribution &c. It is therefore ordered by the court, that Wednesday the 10th day of October, A. D. 1860 be set apart for the hearing and determining upon said petition, and of the day set for the hearing of the same, be given by publication in the Jacksonville Republican, a newspaper printed and published in said county for thirty days, previous to said Wednesday the 10th day of October, 1860, notifying said non-resident heirs, to be and appear at a special Term of said court, to be held at the Court House of said county on that day, and defend against said petition, if they think proper.

Witness, A. Woods, Judge of said court, at office on the 27th day of August, A. D. 1860.

## Jacksonville Republican

JACKSONVILLE, ALA.

September 27, 1860.

FOR PRESIDENT.

J. C. BRECKINRIDGE,  
OR KENTUCKY.

FOR THE PRESIDENT.

SEN. JOSEPH LANE,  
OF OREGON.

To Our Patrons.

We have promised money in the sum expected of receiving it from our patrons, during the time of our suing Fall Court, and hope we shall be disappointed. We have collected, comparatively nothing, since the third time set in early in the Spring; while our cash expenses have been going without abatement; which we see will be a sufficient apology for making this request.

PUBLIC SPEAKING!

Ex-Governor John A. Winston, will address the people of Calhoun County Alabama, Alexandria, Thursday, Sept. 27, 1860. Jacksonville, Friday, Sept. 28. Oxford, Saturday, Sept. 29.

John Winston will answer at this place by G. C. Whatley, Esq.—and it is expected, that Tad Bradford, Esq. at Oxford, will be requested to do so.

Maj. J. A. Stevenson is just receiving, and will continue to receive for one time, a very extensive and well selected stock of Fall & Winter Goods at his Store on the South-west corner of the square.

While in his Store on yesterday morning, we were shown a number of articles of new, beautiful and fashionable styles, and was also convinced that his stock was very large, embracing a great variety.

Our friends, we are sure, would call to call and examine his stock—they will find the Proprietor & Clerks always polite and attentive, ever ready to offer them every reasonable inducement to trade.

We are requested to tender the thanks of our better half to Mr. Shell Stevenson, of the above named house, for the very nice and acceptable present sent by him on Tuesday last. Sure, the Ladies will not fail to patronise our true and gallant friend.

We respectfully invite attention to the card of M. P. Stovall, Ware house & Commission Merchant of Augusta, Ga. One who has been so long favorably known, and of such long tried and unwavering integrity, needs no other endorsement than the fact that he continues business in his large commodious Fire Proof Warehouse, Jackson street, near the Globe Hotel.

Our thanks are due to George Lorden, Esq. Postmaster at White Plains, for his promptitude in forwarding of subscribers, & his high appreciation and good will for our paper generally.

**Goods at Cost.**—As will be seen by his advertisement, in another column, Mr. August Meyers, at Ladoga, now offering his entire stock of Goods at cost. Those who want to supply themselves with cheap Goods, would do well to improve the opportunity offered.

We did not receive the letter requesting us to publish the appointments for speaking at White Plains and Oxford, until Thursday evening, after our papers were printed and mailed. The miscarriage occurred we suppose, by its being sent with an Ash. We mail sent back to this office, and at it went to Ashville and remained.

Mr. B. O. Ramsey, (whose name is mentioned in our list, in connection with the account of speaking by G. C. Whatley, Esq. & Judge Woods,) was requested us to say that he never made the charge of encroachment against Mr. Breckinridge on the contrary, that he defended him against it further requested us to say, that if arguments be true of the fusion of Mr. and Douglas men in many places, it is no longer for Poll—but because he regards Douglas as little if not better for the South than Lincoln, Black Republic.

We have received the September number of the quarterly Journal referred to in following notice of the Montgomery Advertiser, which so fully expressive of our own appreciation of the excellent and truly valuable work to render it unnecessary for us to say any thing in addition:

**Compositon Art Journal.**—The September number of this excellent quarterly has come to hand, replete, as usual, with interesting reading matter, and embellished with engravings which are really superb. The frontispiece, Juliet, in the balcony scene from "Romeo and Juliet," a sublime piece of art, worth more than the price of subscription for a year. Among the numerous excel- lents in this number, we might mention the following as particularly rendering a rich intellectual repast—*Dear Swift and his Amours!* A full estimate of his character; "Winfred and Well;" a story of the early Puritans; the popular anecdotes, Alice Casey; "Three Sketches of Virginia," by John Ross Cooke; "The Picture World," a story by the late William North; and "The Art and Principles of Masonic Works," a pleasant essay upon that species of art production.

The *Art Journal* is published at 518 Broadway, New York, by the Cosmopolitan Art Association, at two dollars per annum, or fifty cents for a single copy, invariably in advance.

**Arthurs Ladies Home Magazine.** We received some days ago, the Sept. No. of this truly interesting and valuable monthly Magazine, so often referred to by us heretofore, in terms of unequivocal commendation. We have only to add now, that in its high moral tone, beauty of embellishments, and interest of contents, its high reputation is fully sustained. It is published at Philadelphia by T. S. Arthur, at \$2 per annum in advance.
